CIRCULAR No. 61

NON-ADHERENCE TO SAFETY GUIDELINES BY STUDENTS USING SCHOOL TRANSPORT

Dear Parents,

Greetings !

It has been noticed by the school safety inspection team that a large number of students making use of the school bus facility are not complying with the safety guidelines by not using the seatbelts while travelling in the school buses. This will be a safety concern for your ward as well as invite heavy fines to the parents and to school.

To ensure the safety and well-being of our students, we are implementing strict measures to enforce the use of seatbelts during bus travel. Hence, as per DOT regulations , with immediate effect, students who fail to comply with these safety guidelines will not be permitted to use the school bus facility.

We urge all parents to emphasize the importance of following safety protocols for their children and advise them to strictly follow the safety guidelines as required by the authorities. Your cooperation is crucial in helping us to maintain a safe and secure transportation environment for everyone.

Thank you for your understanding and support in this matter. Should you have any concerns or require further clarification, please feel free to contact the school transport and safety department.

BEST REGARDS
