CIRCULAR No.48

IMPORTANCE OF ATTENDING PREBOARD AND MODEL EXAM BY STUDENTS

Dear Parents/students of Grade 10&12

Greeting!

Kindly be informed that prior to CBSE 2024-25 board exam the school conducts Model and Pre-board Examinations for Grade 10 and 12 students. This helps the students to perform better in the forthcoming board exam as the QPs are prepared in line with CBSE updated sample papers and evaluation scheme pertaining to the marking scheme for board exams. The aforementioned exams help the students to be accustomed with the updated pattern as well as to appear in the exam with confidence.

Hence, the parents are requested to ensure that their ward are attempting the model and pre-board exams with effective preparation that accumulates their consistent learning and its efforts as it is a replica of forthcoming board exam and the results are an indication of how your ward will perform in the board exam.

Accordingly, students are instructed to attend the model and pre-board examinations adhering to the school assessment policy and guidelines to maintain the sanctity of the exam. It is also observed that the students were not punctual in reporting for these exams in previous years. Students must strictly follow the timing for the examination which is aligned with CBSE Board examination time schedule. In case of late reporting, students will not be permitted to enter the school premises. Furthermore, Rearranging the exam schedule will not be entertained.

Moreover, it is reiterated that the score obtained in the Pre-board exam for Grade 10 is a decisive element in determining the admission of a student in Grade-11 during the academic year 2025-26. Hence, it is important for all Grade 10 students to attempt the pre-board exam with maximum preparation.

We expect full cooperation to enforce the abovementioned subject positively.

Best Regards,

ANZAR ABDUL SALAM
PRINCIPAL
